

Synergistic Dechlorination - Benefits

Synergistic Dechlorination - Benefits

- **Patented Injection Process**
- **Targeted Delivery**
- **Interior or Exterior Injections**
- **Source Treatment or PRB**
- **DNPL Treatment**
- **On-Going facility operations may not be disrupted**
- **Easily Permitted**
- **Patented Chemistry**
- **Rapid and Maintained Reducing Conditions**
- **Enhanced Microbial Processes**
- **Dual-Source Hydrogen generation**
- **Catalytic Surface oxidation**
- **No Lag Phase to dechlorination**
- **Maximizes on-going processes**
- **Variable Injection Component Concentrations Allow for Economical Application**
- **Rapid, Measurable results**
